

# ***Their Lullaby***

Lay your head down on the pillow, close your eyes and go to sleep.

May all your dreams drift down from heaven, all your troubles He will keep.

Don't you worry He is watching, He will guide you through the night.

And when you wake up in the morning, He will surround you with His light.

## ***Chorus***

***So sleep my little ones, feel the love that's all around***

***Jesus will carry you to where the morning can be found***

***Jesus will carry you to where the morning can be found.***

He will watch you while your sleeping, He will guide you through the day

He will continue while your growing, staying with you day by day

Don't you worry He is watching, He will guide you through your life

## ***Chorus***

When you put your trust in Jesus you'll know the fullness of His light.

When your grown and have a family, keep the faith in Him alive

Your children will have His great blessing, just as you have in your life

Always remember where you came from, and all that life has to impart.

And He will bless you and your family if you keep Him in your heart.

## ***Chorus***
