

# ***Nice Song***

1<sup>st</sup> chorus acapella

***I'm changing, I'm changing. I'm changing into the man You want me to be***

***I'm growing, I'm growing. I'm growing in Your love, and I give myself to Thee.***

When You hold my hand, my strength is multiplied.

When I follow in Your footsteps, I can see Your guiding light.

Shining down to show my path in life, like I've never seen before.

Oh my life has never been so good, since I let You in my heart.

## ***Chorus***

My first goal is for my family, for without them I am not.

I will work on mending fences that have shown the signs of rot.

I will slowly introduce the love that You have gifted me

And the fences will regain their strength, that defines our family.

With the strength of our unity then we can impart, the love and understanding that You've given in our hearts.

## ***Chorus***

Our next mission is to spread the Word, and let others in His love

For He gives the greatest gift of all, that anyone received.  
Our second birth in Christ His Son, and a place in Heaven high.  
Is the fruit of all our labors, in the name of Christ

***Chorus***
